FRUIT TREE STOCKS—American Grown

We specialize in growing and distributing fruit tree stocks, maintaining extensive plants in the North-West and in the Topeka, Kansas district.

We have been engaged in the seedling business for over 50 years and know how to grow and handle them. Our seedlings are kept well sprayed during the growing season; are healthy, thrifty and not dug until well ripened. Our many satisfied customers are proof our seedlings will give satisfaction.

WESTERN GROWN—Our experience has demonstrated that due to favorable climatic conditions the western grown seedlings are superior. Last winter we used all western Apple seedlings for our grafting and for budding stocks planted in the spring.

FUTURE ORDERS—We are always glad to quote prices and book advance orders. This gives us an opportunity to secure the necessary amount of seed and plant to insure 100% delivery. We solicit your inquiries and orders.

GRADES—We make strong grades that please our customers.
